A Change may involve, but is not restricted to, the substitution of updated technical solution and related Services in accordance with GCC clause 23 (Product Upgrades). <p>39.1.2 The Supplier may, from time to time during its performance of the Contract Agreement propose to NBP (with a copy to the Project Manager) any Change that the Supplier considers necessary or desirable to improve the quality or efficiency of the System. The NBP may at its discretion approve or reject any Change proposed by the Supplier.</p> <p>39.1.3 Notwithstanding GCC clauses 39.1.1 and 39.1.2, no change made necessary because of any default of the Supplier in the performance of its obligations under the Contract Agreement shall be deemed to be a Change, and such change shall not result in any adjustment of the time for Achieving Operational Acceptance.</p> <p>39.1.4 The procedure on how to proceed with and execute Changes is specified in GCC clauses 39.2 and 39.3, and further details and sample forms are provided in the Sample Forms section in the Bidding Documents.</p> <p>39.1.5 Moreover, NBP and the Supplier will agree, during development of the Project Plan, to a date prior to the scheduled date for Operational Acceptance, after which the Technical Requirements for the System shall be “frozen.” Any Change initiated after this time will be dealt with after Operational Acceptance.</p> <p>39.2 Changes Originating from NBP</p> <p>39.2.1 If NBP proposes a Change pursuant to GCC clauses 39.1.1, it shall send to the Supplier a “Request for Change Proposal,” requiring the Supplier to prepare and furnish to the Project Manager as soon as reasonably practicable a “Change Proposal,” which shall include the following:</p> <ul style="list-style-type: none"> a) Brief description of the Change; b) Impact on the time for achieving Operational Acceptance; c) Detailed estimated cost of the Change; d) Effect on Functional Guarantees (if any); e) Effect on any other provisions of the Contract Agreement. <p>39.2.2 Prior to preparing and submitting the “Change Proposal,” the Supplier shall submit to the Project Manager a “Change Estimate Proposal,” which shall be an estimate of the cost of preparing the Change Proposal, plus a first approximation of the suggested approach and cost for implementing the changes. Upon receipt of the Supplier’s Change Estimate Proposal, NBP shall do one of the following:</p>
----	-----------------------	--

		<p>a) Accept the Supplier’s estimate with instructions to the Supplier to proceed with the preparation of the Change Proposal;</p> <p>b) Advise the Supplier of any part of its Change Estimate Proposal that is unacceptable and request the Supplier to review its estimate;</p> <p>c) Advise the Supplier that NBP does not intend to proceed with the Change.</p> <p>39.2.3 Upon receipt of NBP’s instruction to proceed under GCC clause 39.2.2 (a), the Supplier shall, with proper expedition, proceed with the preparation of the Change Proposal, in accordance with GCC clause 39.2.1. The Supplier, at its discretion, may specify a validity period for the Change Proposal, after which, if NBP and the Supplier have not reached an agreement in accordance with GCC clause 39.2.6, then GCC clause 39.2.7 shall apply.</p> <p>39.2.4 The pricing of any Change shall, as far as practicable, be calculated in accordance with the rates and prices included in the Contract Agreement. If the nature of the Change is such that the Contract Agreement rates and prices are inequitable, the parties to the Contract Agreement shall agree on other specific rates to be used for valuing the Change.</p> <p>39.2.5 The Supplier shall give an initial estimate of the cost for the Change Proposal. This initial estimate shall be at no extra cost or fee to NBP. If the initial estimate of the cost of the Change Proposal increases the Contract Price as originally set forth in the Contract Agreement by more than fifteen (15) percent, the Supplier shall notify NBP of the said increase in the Contract Price. If NBP accepts the Supplier’s notification, NBP shall withdraw the proposed Change and shall notify the Supplier in writing of its acceptance. The Supplier shall not under any circumstances proceed further in the matter until it has notified NBP as aforesaid and if the Supplier does proceed with such a Change Proposal then it shall bear its own costs if NBP rejects the Change Proposal on the grounds that it exceeds 15 percent of the Contract Price.</p> <p>39.2.6 Upon receipt of the Change Proposal, NBP and the Supplier shall mutually agree upon all matters contained in the Change Proposal. NBP shall, if it intends to proceed with the Change, issue the Supplier a Change Order. If NBP is unable to reach a decision within a reasonable time, it shall notify the Supplier with details of when the Supplier can expect a decision. If NBP decides not to proceed with the Change for whatever reason, it shall notify the Supplier accordingly. Under such circumstances, the Supplier shall be entitled to reimbursement of all costs reasonably incurred by it in the preparation of the Change Proposal, provided that these do not exceed the amount given by the Supplier in its Change Estimate Proposal submitted in accordance with GCC clause 39.2.2.</p> <p>39.2.7 If NBP and the Supplier cannot reach an agreement on the price for the Change, an equitable adjustment to the time for achieving Operational Acceptance, or any other matters identified in the Change Proposal, the Change will not be implemented. However, this provision does not limit the rights of either party under GCC clause 6 (Settlement of Disputes).</p> <p>39.3 Changes Originating from Supplier If the Supplier proposes a Change pursuant to GCC clause 39.1.2, the Supplier shall submit to the Project Manager, a written “Application for Change Proposal,” giving reasons for the proposed Change and including the information specified in GCC clause 39.2.1. Upon receipt of the Application for Change Proposal, the parties shall follow the procedures outlined in GCC clauses 39.2.5, 39.2.6 and 39.2.7, except that the words “Change Proposal” shall be read, for the purposes of this GCC clause 39.3.1 as “Application for Change Proposal.” However, should NBP choose not to proceed or NBP and the Supplier cannot come to an agreement on the change during any validity period that the Supplier may specify in its Application for Change Proposal, the Supplier shall not be entitled to recover the costs of preparing the Application for Change Proposal, unless specified otherwise in the Contract Agreement.</p>
40	Extension of Time for Achieving Operational Acceptance	<p>40.1 The time(s) for achieving Operational Acceptance specified in the implementation schedule shall be extended if the Supplier is delayed or impeded in the performance of any of its obligations under the Contract Agreement due to any of the following reasons:</p> <p>a) Any Change in the System as provided in GCC clause 39 (Change in the</p>

As soon as reasonably practicable after receipt of such notice and supporting particulars of the claim, NBP and the Supplier shall agree upon the period of such extension. In the event that the Supplier does not accept NBP’s estimate of a fair and reasonable time extension, the Supplier shall be entitled to refer the matter to the provisions for the Settlement of Disputes pursuant to GCC clause 6.</p> <p>40.3 The Supplier shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract Agreement.</p>
