	incidentals.
	Inland transportation, insurance, and other incidental costs for delivery of
	the goods from EXW/port of entry/border point to Project Site named in
	the BDS will be computed for each Bid by the PA on the basis of published
	tariffs by the rail or road transport agencies, insurance companies, and/or
	other appropriate sources. To facilitate such computation, Bidder shall
	furnish in its Bid the estimated dimensions and shipping weight and the
	approximate EXW or as per applicable INCOTERM value of each package.
	The above cost will be added by the NBP to EXW or as per applicable
	INCOTERM price.
	(b) Delivery schedule.
	${ m i})$ The NBP requires that the goods under the Invitation for Bids shall be
	delivered (shipped) at the time specified in the Schedule of
	Requirements. The estimated time of arrival of the goods at the Project
	Site will be calculated for each Bid after allowing for reasonable international and inland transportation time. Treating the Bid resulting
	in such time of arrival as the base, a delivery "adjustment" will be
	calculated for other Bids by applying a percentage, specified in the
	BDS, of the EXW or as per applicable INCOTERM price for each week of
	delay beyond the base, and this will be added to the Bid price for
	evaluation. No credit shall be given to early delivery.

	Bids offering deliveries later than the earliest delivery period
	specified in the Schedule of Requirements.

Or

(iii) The goods covered under this invitation are required to be delivered (shipped) in partial shipments, as specified in the Schedule of Requirements. (C) Deviation in payment schedule.

 i) Bidders shall state their Bid price for the payment schedule outlined in the SCC. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in Bid price they wish to offer for such alternative payment schedule. The NBP may consider the alternative payment schedule offered by the selected Bidder.

Or

ii) The SCC stipulates the payment schedule offered by the NBP. If a Bid deviates from the schedule and if such deviation is considered acceptable to the NBP, the Bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the Bid as compared with those stipulated in this invitation, at the rate per annum specified in the BDS.

(d) Cost of spare parts

 The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the BDS, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each Bid, will be added to the Bid price.

Or

ii) The NBP will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the BDS. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the Bid price.

Or

iii) The NBP will estimate the cost of spare parts usage in the initial period of operation specified in the BDS, based on information furnished by each Bidder, as well as on past experience of the NBP or other NBP's in similar situations. Such costs shall be added to the Bid price for evaluation.

(e) Spare parts and after sales service facilities in Pakistan

		E – OPENING AND EVALUATIO OF BIDS
		 (f) Operating and maintenance costs Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the BDS or in the Technical Specifications. (g) Performance and productivity of the equipment. i) Bidders shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the BDS will be added to the Bid Price, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in the BDS or in the Technical Specifications. ii) Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the Bid, and adjustment will be added to the Bid price using the methodology specified in the BDS or in the Technical Specifications.
		(h) <i>Specific additional criteria</i> . Other specific additional criteria to be considered in the evaluation and the evaluation method shall be detailed in the BDS and/or the Technical

		specifications and functionalities of the goods to be procured and requires the bidders to submit their proposals defining those features, specifications and functionalities; or
		ii) Where the NBP, in addition to the mandatory requirements and

		mandatory technical specifications, requires parameters specified in
		Evaluation Criteria to be evaluated while determining the quality of the
		goods:
		In such cases, the NBP may allocate certain weightage to these factors as a
		part of Evaluation Criteria, and may determine the ranking of the bidders on
		the basis of combined evaluation in accordance with provisions of Rule $2(1)(h)$

		part of the post-qualification process. The following process shall apply:
		a) The NBP may reject a Bid if the NBP has determined that the price in
		combination with other constituent elements of the Bid is abnormally low in
		relation to the subject matter of the procurement (i.e. scope of the
		procurement or ancillary services) and raises concerns as to the capability
		and capacity of the respective Bidder to perform that contract;
		b) Before rejecting an abnormally low Bid the NBP shall request the Bidder an
		explanation of the Bid or of those parts which it considers contribute to
		the Bid being abnormally low; take account of the evidence provided in
		response to a request in writing; and subsequently verify the Bid or parts
		of the Bid being abnormally low;
		c) The decision of the NBP to reject a Bid and reasons for the decision shall be
		recorded in the procurement proceedings and promptly communicated to the
		B <mark>idder conc</mark> erned;
		d) The NBP shall not incur any liability solely by rejecting abnormally Bid; and
		e) An abnormally low Bid means, in the light of the NBP's estimate and of all
		the Bids submitted, the Bid appears to be abnormally low by not providing a
		margin for normal levels of profit.
		Cuideness for NDD
		Guidance for NBP:
		In order to identify the Abnormally Low Bid (ALB) following approaches can be
		considered to minimize the scope of subjectivity:
		(i) Comparing the bid price with the cost estimate;
		(ii) Comparing the bid price with the bids offered by other bidders
		submitting substantially responsive bids; and
		(iii) Comparing the bid price with prices paid in similar contracts in the

	satisfactorily, in accordance with the criteria listed in ITB 13.3.
36.4	The determination will take into account the Bidder's financial, technical, and
	production capabilities. It will be based upon an examination of the documentary
	evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB
	13.3, as well as such other information as the NBP deems necessary and
	appropriate. Factors not included in these Bidding Documents shall not be used
	in the evaluation of the Bidders' qualifications.
36.5	NBP may seek "Certificate for Independent Price Determination" from the
	Bidder and the results of reference checks may be used in determining award of
	contract.
	Explanation: The Certificate shall be furnished by the bidder. The bidder shall
	certify that the price is determined keeping in view of all the essential aspects
	such as raw material, its processing, value addition, optimization of resources
	due to economy of scale, transportation, insurance and margin of profit etc.
<mark>3</mark> 6.6	An affirmative determination will be a prerequisite for award of the contract to
	t <mark>he Bidder. A</mark> negative determination will result in rejection of the Bidder's Bid, in
	which event the NBP will proceed to the next ranked bidder to make a similar
	determination of that Bidder's capabilities to perform satisfactorily.
